### **Guam Humanities Council Announces Launch of Website**

The Guam Humanities Council is pleased to announce the launch of its newly redesigned website, [www.guamhumanitiescouncil.org](http://www.guamhumanitiescouncil.org). The new site features a comprehensive overview of Council projects and programs, highlights on current and upcoming projects, the Council calendar, forms and guidelines for the Community Grant program, an events gallery and more. The site aims to expand the reach of the Council's programs and resources to the broad audiences they serve.

"Our goal was to create a site that was both visually striking and accessible to visitors. We invite the public to visit the website to learn more about our organization and the work we do on Guam," said Kimberlee Kihleng, Executive Director of the Council.

The Council staff contracted GuamWEBZ to develop the new site and worked closely with the company's lead consultant, Rhaj Sharma, on its redesign and launch. GuamWEBZ is a Guam-based firm specializing in the design and development of viable online solutions for small and large businesses, non-profit groups, and local and federal government agencies.

The Guam Humanities Council is an independent nonprofit organization that provides foundational support and educational resources for the people of Guam. The mission of the Guam Humanities Council is to foster community engagement and dialogue, inspire critical thinking, celebrate diversity and enrich the quality of life of island residents through the power of the humanities.
